## **LORI Website Redesign**

### **Tips for using the Site**

The LORI Website has undergone a facelift and a major technological upgrade. Many of the improvements are behind the scenes, but visitors to the site will benefit from faster-loading pages and an improved navigation system. The drop-down menu navigation system has returned! Try mousing over the links at the top of the page; each item has a drop-down menu, and occasional side menus to allow users to easily travel from one part of the site to another. For example, mouse-over "LORIPro," then go down to "Delivery." Visitors with older browsers, or those who prefer a text layout can use the **Text Navigation**. The improvements to the site required a change from the previous file format, however. For those interested in the technical explanation, the LORI Webteam will endeavour to post a brief report about the changeover at a later date. All users should note that the extensions of all files (the final part of the file name) have changed, making it necessary to change any bookmarks (or "favorites") you have for LORI webpages.

We hope you like the new look and find it easier to get around the LORI Website. We welcome your comments, and encourage you to **contact the LORI Webteam** with any questions or comments you may have.

### **Tips for Using the New LORI Website**

- Change your bookmarks (or Favorites)
- Use the drop-down menus under the **OLIS and Library Services** header
- Use the **LORI Search** or **Text Navigation** in the header to find pages you've previously bookmarked
- Contact the **LORI Webteam** with comments or questions

Thank you for your patience while we continue to upgrade the LORI Website!
